Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Information Disclosure Statement

1. The Information disclosure Statements filed on 2/11/04 has been considered.

Claims Rejection Under 35 USC - 102

2. (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 8, 9, 11 and 12 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by **Schubert** (6,595,635).

Schubert discloses apparatus for positioning a magnifying lens comprises an eye shield assembly, an attachment assembly for removably attaching the eye shield assembly to the visor, the attachment assembly including: an eye shield support; and a telescopic arm having a proximal end and a distal end, the proximal end coupled with the support for pivotal movement about a first axis, the distal end coupled with the eye shield assembly. (see figures 1, 2, 7, 8 and the related disclosure).

Allowable Subject Matter

3. Claims 1-7 and 14-19 are allowed.
4. Claims 10 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Reasons For Allowance

5. The following is an Examiner's Statement of Reasons for Allowance:

The prior art does teach a generally flexible, elastic band coupled with and spanning between the support members and held in tension by the support members, a visor-receiving slot being defined between the band and the eye shield assembly as recited in independent claim 1.

The prior art does not teach the eye shield assembly includes first and second lenses connected by a bridge, the bridge including a central portion coupled with the arm, and first and second outer portions, the first and second outer portions being coupled with the central portion for pivotal movement about generally parallel first and second axes, the first and second outer portions each including a hinge permitting pivotal movement of the first and second lenses about third and fourth axes, the third and fourth axes not intersecting the first and second axes.

6. Any inquiry concerning this communication should be directed to Examiner Dang at telephone number (571) 272-2326.
